

Stitching close-up

Durene has done a great job at capturing the bride and groom's blissfully happy facial expressions. Take your time on these backstitched areas to ensure that you get them just right.

Finishing touches

For extra embellishment and sparkle, add a few pink or gold seed beads to the flowers in the bride's hair and the groom's lapel.

TOP TIP

Stitch one of the designs and patch it onto the front of a wedding album
