

The Seahorse can be worked on 14 count vinyl weave, perforated paper or perforated plastic using cross stitch or 11/0 beads.

You could cross stitch the seaweed and bead the Seahorse or vice versa, but if you combine beads with cross stitch, sew the beads on diagonally using a half cross stitch, so they will built up nicely with the cross stitch.

THE SEAHORSE BOOKMARK was worked in cross stitch on 14 count vinyl weave fabric using two strands of Anchor thread.

Upon completion of the sewing the vinyl weave was trimmed one square away from the needlework.
