

**Yellow Book Marks** were worked in cross stitch using two strands of Anchor stranded cotton on 16 count antique white Aida 13 cm x 18 cm (5" x 7") and were made into book marks.

#### To Make Up Book Marks

1. Centre the cross stitch design on the fabric.
2. When embroidery is complete, seam the two long sides (this seam will be in the middle of the back of the book mark. You may find it easier to press the seams at the back and then oversew them closed).
3. Seven squares away from the needlework, use a running stitch to join top and bottom edges of book mark.
4. Fringe top and bottom edges up to running stitch.

**Helpful Hint:** I used thread pulled from the Aida cloth for seams and running stitch to save the bother of matching a cotton to the fabric.
