

Stitching ideas

Why not turn your fairy into a bookmark? These designs are the perfect size and shape! Add interfacing and felt to the back to add strength to the aida.

Just to say...

"Sending sweet fairy wishes to you"

Stitching close-up

Lesley has used four different shades of backstitch on these cards. Grey defines the fairies and parts of the flowers, while dark green is used for the stems and some leaves. Check the key carefully to see which colour you need.
