

Finishing touches

When you've finished stitching the designs, add some metallic embellishments to make the cards twinkle, and enhance their ethereal feel. Visit www.craftdepartment.com to take a look at their range, which includes heart, star and butterfly charms in silver and gold tones.

Stitching ideas

Instead of working the French knots, you could add seed beads to the faines for added texture and a luxurious finish. Make sure you use a special beading needle, which is long and thin.

TOP TIP

Add a girl's name to your design by plotting out the lettering on graph paper.
