

PE1 POPCORN BOOKMARK

To Start:-

Find the right side of the fabric - the indentations between the scallops are more raised on the right side.

Oversew the top and bottom edges of the Aida band, as it frays easily.

Please stitch using a single strand unless otherwise stated.

FRINGING THE BOOKMARK

If your bookmark needs to be washed, we recommend that you wash it before fringing.

Trim top and bottom fabric 8 squares from outer stitching. Pull out the horizontal threads to within two squares of the border. Tightly fasten off the thread into the back of the bookmark.

The dot between the hearts in the border denotes where to place the flower.

Thread the flower stem through your needle and sew it through to the back of the work and secure tightly.
