

How to work the French knots

Worked in yellow and mint green, French knots are used to add detail to the holly and heart motifs. Each one is represented by a dot on the chart. To work one, bring your needle up through the fabric where you want the knot to be, hold the thread taut in your left hand and wrap the needle around the thread twice. Push the needle back into the fabric, close to where it came up, still keeping the thread taut. Pull the thread through the fabric until a neat knot forms on the front.
