## SQUARE AND RIPPLE BLANKET

### STITCHES USED:

Symbol	Abbreviation	US name
○	ch	chain
●	sl st	slip stitch
┐	hdc	half double crochet
┘	dc	double crochet
⋈		2 dc tog

### GENERAL INSTRUCTIONS

The blanket has two types of corners:

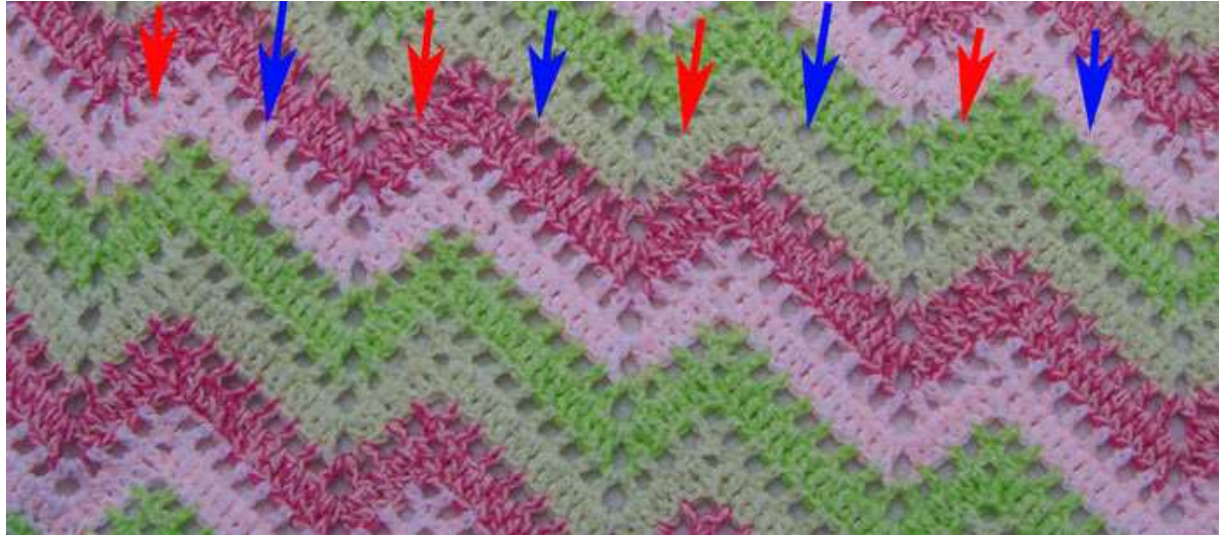

- The increases occur at the **outside corners** (blue arrows):
  - In **odd rounds** (holey rounds) crochet (1 dc, ch 3, 1 dc) in each corner space.
  - In **even rounds** (solid rounds) crochet (2 dc, ch 2, 2 dc) in the space of each corner.
- In the **inside or concave corners** (red arrows) are performed decreases (1 incomplete dc, skip 3 st, 1 incomplete dc, yo and draw through all loops on the hook):
  - In **odd rounds** (holey rounds) we work on 5 stitches, except at the junction of the small squares with the largest piece, where we skip from the space of the one part to the space of the another.
  - In **even rounds** (solid rounds) we work on 5 stitches.

## SQUARE AND RIPPLE BLANKET

**IMPORTANT:** While crocheting, verify that you have added no stitches where not applicable (the amounts of dc indicated below include the incomplete dc):

- From the 2nd round, the number of stitches forming the **ripple** remains the same:
  - **Short sides** (red arrows):  
4 dc in odd rounds (holey rounds) and 7 dc in even rounds (solid rounds).
  - **Medium sides** (blue arrows):  
8 dc in odd rounds (holey rounds) and 15 dc in even rounds (solid rounds).

- The number of stitches increases at both **ends of the rug (long sides)**, and from Round 1 the increase is constant relative to the previous similar round:
  - The **odd rounds** (holey rounds) increase 4 dc each time:  
Round 1) 2 dc; 3) 6 dc; 5) 10 dc; 7) 14 dc; 9) 18 dc.
  - The **even rounds** (solid rounds) increase 8 dc each time:  
Round 2) 7 dc; 4) 15 dc; 6) 23 dc; 8) 31 dc; 10) 39 dc; 12) 47 dc.
